## Condensed notes to the interim consolidated financial statements

For the six months ended June 30, 2011 and 2010

(unaudited)

---

### 1. Incorporation, nature of operations and going concern

The Company, incorporated under Part 1A of the Québec Companies Act, is a mining exploration business. Since February 14, 2011 the Company is regulated by the Business Corporation Act (Quebec). It has not yet determined whether the mining properties contain economically recoverable ore reserves. The recoverability of the amounts shown for mining properties depends upon the existence of economically recoverable ore reserves, the ability of the Company to obtain necessary financing to continue exploration work and development of its properties, and upon future profitable production or proceeds from the disposal of properties.

For the year ended June 30, 2011, the Company recorded a loss of \$676,239 (\$602,234 in 2010). In addition to ongoing working capital requirements, the Company must secure sufficient funding to meet its existing commitments for exploration and development programs and pay general and administrative costs.

Management periodically seeks additional form of financing through the issuance of new equity instruments and the exercise of stock options to continue its operations, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. Without new funding being available, the Company may be unable to continue its operations, and amounts realized for its assets may be less than amounts recorded in these consolidated financial statements.

Although management has taken steps to verify title to mining properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and may not be in compliance with regulatory requirements.

The consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and liquidation of liabilities during the normal course of operations. These consolidated financial statements do not reflect the adjustment to the carrying values of assets and liabilities, the reported revenues and expenses and balance sheet classifications that would be necessary were the going concern assumption would not be appropriate. These adjustments could be material.

### 2. Basis of preparation and adoption of IFRS

The accompanying consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles as set out in Part 1 of the Handbook of the Canadian Institute of Chartered Accountants ("CICA Handbook"). In 2010, the CICA Handbook was revised to incorporate the International Financial Reporting Standards ("IFRS"), as published by the International Accounting Standards Board, and require publicly accountable enterprises to apply such standards effective for years beginning on or after January 1, 2011. Accordingly, the Company has commenced reporting on this basis in these unaudited interim consolidated financial statements of 2011. In the financial statements, the term "Canadian GAAP" refers to Canadian GAAP before the adoption of IFRS.

These unaudited condensed interim consolidated financial statements have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting, and IFRS 1, First-time Adoption of International Financial Reporting Standards. The accounting policies followed in these unaudited condensed interim consolidated financial statements are the same as those applied in the Company's unaudited condensed interim consolidated financial statements for the period ended March 31, 2011. The Company has consistently applied the same accounting policies throughout all periods presented, as if these policies had always been in effect. Note 4 discloses the impact of the transition to IFRS on the Company's reported equity as at June 30, 2010, on net loss and comprehensive loss for the three and six months ended June 30, 2010, including the nature and effect of significant changes in accounting policies from those used in the Company's financial statements for the year ended December 31, 2010.

The accounting policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS effective for the year ended December 31, 2011, as issued and outstanding as of August 18, 2011, the date the Board of Directors approved the statements. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2011 could result in restatement of these unaudited condensed interim consolidated financial statements, including transition adjustments recognized on change-over to IFRS.

The unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's Canadian GAAP annual financial statements for the year ended December 31, 2010, and the Company's unaudited condensed interim financial statements for the quarter ended March 31, 2011, prepared in accordance with IFRS applicable to interim financial statements.

The accompanying notes are an integral part of these condensed interim consolidated financial statements.

For the six months ended June 30, 2011 and 2010

(unaudited)

---

### **3. Critical accounting estimates and judgments**

The preparation of financial statements in conformity with IFRS requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company also makes estimates and assumptions concerning the future. The determination of estimates requires the exercise of judgment based on various assumptions and other factors such as historical experience and current and expected economic conditions. Actual results could differ from those estimates.

Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

### **4. Transition to IFRS**

The effect of the Company's transition from Canadian GAAP to IFRS, as described in Note 2, is summarized in this note as follows:

- a. Reconciliation of equity and comprehensive income as previously reported under Canadian GAAP to IFRS;
- b. Adjustments to the statement of cash flows.

## 4. Transition to IFRS *(continued)*

### *a. Reconciliation of equity and comprehensive income as previously reported under Canadian GAAP to IFRS (continued)*

Under Canadian GAAP, when flow-through shares are issued, they are initially recorded in share capital at their issue price. On the date the expenses are renounced (by filing the prescribed forms) to the investors, a deferred tax liability is recognized as a cost of issuing the shares (a reduction in share capital). While IFRS does not provide specific guidance on the accounting for flow-through shares, it is generally agreed that the method required by the Securities and Exchange Commission - under US GAAP - is appropriate. As a result, under IFRS, flow-through shares are recognized based on the quoted price of the existing shares on the date of the issue. The difference ("premium") between the amount recognized in share capital and the amount the investors pay for the shares is recognized as a deferred gain which is reversed into earnings as eligible expenditures are made. The tax effect resulting from the renunciation is recorded as a deferred tax expense when eligible expenditures have been made.

### *b. Adjustments to the statement of cash flows*

The transition from Canadian GAAP to IFRS had no significant impact on the statement of cash flows, except that, under IFRS, cash flows related to interest are classified in a consistent manner as operating, investing or financing activities each period. Under Canadian GAAP, cash flows related to interest received or paid were classified as operating activities.

## 8. Options and warrants

### Options

The Company has established a stock option plan pursuant to which options to purchase common shares may be granted to officers, directors and employees of the Company as well as persons providing ongoing services to the Company. During the year, the Company changed the number of options that can be granted, increasing it to 9,839,129 options. The exercise price of options, established by the Board of directors, cannot be less than the market price of the Company's shares on the date preceding the date of grant. The options are vested gradually over a period of eighteen months.

A summary of the status of the Company's stock option plan as at June 30, 2011 is presented hereafter:

	June 30, 2011		December 31, 2010	
	Number	Weighted average exercise price	Number	Weighted average exercise price
		\$		\$
Balance – January 1	6,215,000	0.23	5,285,000	0.20
Granted	-	-	2,055,000	0.29
Expired and cancelled	(181,800)	0.11	(585,000)	0.17
Exercised	(475,000)	0.23	(540,000)	0.15
Balance – end of period	5,558,200	0.22	6,215,000	0.23
Options exercisable at end of year	4,435,200	0.22	4,182,500	0.28

As of March 31, 2011, the balance of options available for grant under the plan is 1,316,629 (1,134,829 in 2010).

The exercise prices and the maturity dates of the options are shown in the following table :

Maturity Date	Exercise price \$	June 30, 2011	December 31, 2010
		Number of options	Number of options
January 31, 2011	0.110	-	181,800
July 20, 2011	0.160	40,000	40,000
September 29, 2011	0.350	60,000	150,000
October 25, 2011	0.360	100,000	100,000
November 5, 2011	0.400	75,000	150,000
February 26, 2012	0.260	800,000	800,000
July 17, 2012	0.220	710,000	800,000
November 21, 2012	0.180	110,000	110,000
May 13, 2014	0.110	218,200	218,200
May 13, 2014	0.160	400,000	400,000
June 29, 2014	0.100	250,000	400,000
November 1, 2014	0.190	660,000	660,000
November 15, 2014	0.190	400,000	400,000
July 7, 2015	0.140	400,000	400,000
August 29, 2015	0.185	210,000	280,000
October 25, 2015	0.360	1,125,000	1,125,000
		5,558,200	6,215,000

For stock options granted during the year, an amount of \$155,475 (\$105,751 in 2010) was recognized in the statement of operations and credited to contributed surplus.

The fair value of each option granted was estimated using the "Black-Scholes" pricing model with the following weighted-average assumptions for the awards granted during the year:
